## CREEL AND GOW

## FLUORITE CHALICE, 6" \$1,600.00

SKU: N/A

Categories: Bowls & Boxes, Mineral

## **PRODUCT DESCRIPTION**

Fluorite (also called fluorspar) is the mineral form of calcium fluoride, CaF2. It belongs to the halide minerals. It crystallizes in isometric cubic habit, although octahedral and more complex isometric forms are not uncommon. Measures: 6" x 6" x 3"
