PRODUCT DESCRIPTION

19th Century French Gilt Metal and Crystal Chandelier An elegant 19th century French gilt metal and crystal chandelier, designed with a graceful tiered frame supporting eight candle-form lights. The chandelier is adorned with cascading cut crystal drops suspended from scrolling gilt arms, accented by starburst crystal rosettes that add brilliance and refinement. The finely pierced gilt metal gallery features floral medallion details, lending both texture and ornament. With its harmonious balance of lightness and grandeur, this chandelier embodies the neoclassical aesthetic popular in late 19th century French lighting design, blending refined metalwork with the sparkle of crystal prisms. Dimensions: 22" diameter x 40" height.
