SKU: fn34_IGM

Categories: [Tables & Desks](#), [Decor](#)

PRODUCT DESCRIPTION

20th Century Wrought Iron and Glass Coffee Table with Bronze Mounts A finely crafted 20th-century coffee table featuring a rectangular glass top supported by a wrought iron base with elegant geometric and scroll-form details. The corners are secured with patinated bronze finials, lending both strength and decorative refinement to the design. The glass top is thick and inset with precision, enhancing the table's modernist yet artisanal character. The combination of hand-forged iron and bronze details reflects the influence of French Art Deco and modernist designers such as Gilbert Poillerat or Jacques Adnet, who were known for integrating metalwork with clean-lined functionality. Dimensions: Depth 20.5" × Width 39.5" × Height 20.25".
