PRODUCT DESCRIPTION

Willy DARO (20th Century), table lamp in gilded brass with a rectilinear base inset with a natural agate slice, surmounted by a cream silk rectangular shade edged in brass, and stamped Lucifer. Designed circa 1970, this piece exemplifies Daro's distinctive synthesis of modernist geometry and organic ornament, a hallmark of his Brussels atelier active from the 1960s to the 1980s. His lamps and sculptural furnishings, often incorporating semi-precious stones and natural forms, were retailed through leading international decorators such as Maison Jansen and remain sought after for their refined glamour and unique dialogue between nature and design. 17"H
