HALO OF QUILLS: AFRICAN PORCUPINE MIRROR

SKU: N/A

Categories: [Wall Decor](#), [Decor](#)

PRODUCT DESCRIPTION

A striking African porcupine quill mirror, the circular frame meticulously composed of radiating natural quills arranged in concentric bands, creating a dramatic sunburst effect with rich tonal variation from deep ebony to ivory tips. The quills are carefully bound and mounted to form a dense, textural halo that surrounds a central mirror plate, showcasing both the sculptural beauty and organic patterning of the material. This piece reflects traditional African craftsmanship reinterpreted as bold wall décor, combining natural materials with modern design sensibility. A rare and visually arresting statement piece.

Diameter: 48"
