PRODUCT DESCRIPTION

Framed entomological display titled Latticework by Hasharat, showcasing 84 exotic beetle and insect specimens from around the world, arranged in a precise grid against a black ground to highlight their vivid colors and intricate forms. Species range from jewel-toned scarabs and iridescent *Chrysina* from Costa Rica, to rare *Goliathus orientalis* from Tanzania, stag beetles from Indonesia, and metallic-green *Euchroea* from Madagascar. The collection includes specimens from diverse regions such as Thailand, Vietnam, Ecuador, Peru, and Malaysia, each identified and numbered according to the accompanying illustrated index. Encased in a sleek black frame with gilt accents, the display measures 19.75" x 19.75" x 2.25" ($\approx 50 \times 50 \times 6$ cm), creating a striking fusion of natural history and decorative art.
