MALACHITE SPECIMEN, 9"

SKU: sm383_MS-1

Categories: [Mineral](#), [Natural Specimens](#)

PRODUCT DESCRIPTION

This exquisite malachite specimen, measuring 9 inches by 6 inches by 3.25 inches, showcases the intricate beauty of nature's artistry. Renowned for its vibrant green hues and unique banded patterns, each piece of malachite is a testament to the mineral's formation over millennia. This particular specimen, with its substantial size and polished surface, highlights the depth and variation of green that malachite is celebrated for. Ideal for collectors and enthusiasts alike, it serves not only as a stunning display piece but also as a vibrant symbol of natural history and geology. Measures: 9" x 6" x 3.25"
