PRODUCT DESCRIPTION

Mid-Century French Ceramic Owl Lamp, circa 1960s, crafted in glazed earthenware with a rich amber-brown finish. The whimsical owl form features a detachable head, intricately incised feather detailing, and stylized cut-out openings to emit light when illuminated. The design captures both rustic charm and playful character, making it a striking decorative accent as well as a functional lighting piece. Retains a warm, glossy patina consistent with age and use. 15"H
