PRODUCT DESCRIPTION

19th Century Polychrome and Gilt Framed Mirror A charming 19th century wall mirror with a rectangular frame crafted from plaster and finished in gilding, enriched with polychrome decoration. The frame features hand-painted foliate motifs in soft turquoise-green with accents of deep red, creating a striking contrast against the warm gilt ground. The combination of painted relief and gilding reflects the decorative style of the late 19th century, when plaster ornamentation allowed for rich, sculptural designs at a more accessible scale. Dimensions: Height 18.75" x Width 13.25" x Depth 1.5".
