

CREEL AND GOW

ROSE QUARTZ SPHERE, 6.5"

SKU: SM211

Categories: [Points & Spheres](#), [Mineral](#)

PRODUCT DESCRIPTION

Rose Quartz Sphere, 6.5" Rose Quartz is a macro-crystalline mineral, naturally occurring as large intricate crystals. Rose Quartz differs from other Quartz due its pink color, produced from fibrous borosilicate. Crystals of Rose Quartz should be bought by regular weight and dimension as opposed to carats, due to the varying structures of Quartz. Rose Quartz beads dated as old as 7,000 BC have been found, but the crystal still fascinates modern collectors.

Rose Quartz is considered a therapeutic stone. Wearing it, meditating with it, as well as keeping it near, is believed to open the heart up to all kinds of love: romantic love, love of family, love of friends, and love of self.
