

CREEL AND GOW

TAXIDERMY EGYPTIAN GOOSE

SKU: tx14_EG

Categories: [Taxidermy](#), [Nature](#)

PRODUCT DESCRIPTION

Meticulously crafted Taxidermy Egyptian Goose. Though often mistaken for a goose, this splendid avian specimen is more accurately aligned with the shelduck family and hails from the diverse landscapes of Africa, predominantly inhabiting its eastern and southern regions. Remarkable in its appearance, it boasts a mesmerizing pale eye encircled by a striking dark patch, complemented by dainty legs and a harmonious blend of gray and buffy plumage. During flight, the gleaming white forewings are a sight to behold. Frequently encountered in harmonious pairs or endearing family groups, this species exhibits its unique feeding habits, which include both graceful swimming and serene grazing along the shores. Elevate your collection with this exquisite embodiment of nature's splendor. Measures: 15" x 11" x 21"
