Categories: [Taxidermy](#), [Nature](#)

PRODUCT DESCRIPTION

This shoulder mount taxidermy Gemsbok is a stunning addition to any collection. The Gemsbok, also known as the South African Oryx, is a majestic antelope with long, straight horns and distinctive black and white markings. Measuring an impressive 54" in height, this mount captures the true beauty and grandeur of this magnificent animal. The Gemsbok's long, curved horns are a striking feature, with their unique spiral shape and impressive length. Whether you're a hunter, a wildlife enthusiast, or simply someone who appreciates the beauty of nature, this shoulder mount taxidermy Gemsbok is sure to impress. Its impressive size and striking features make it a truly unique and eye-catching addition to any collection. 54"H Local Pickup or White Glove Delivery Quote Only
