PRODUCT DESCRIPTION

19th Century French Carved and Giltwood Mirror A charming 19th-century French giltwood mirror, finely carved with a basket of flowers and ribbons at the crest, flanked by floral and foliate scrolls, all resting above a rectangular frame with beaded inner molding. Retaining its original gilding with a warm, time-softened patina, the mirror shows age-related wear, small losses, and surface cracks consistent with age, enhancing its antique character. The piece exemplifies the refined decorative style of provincial French craftsmanship of the period, blending neoclassical motifs with rustic charm. Dimensions: Height 23", Width 13", Depth 2".
